

TILT NOTES

2/1/13

- We had a discussion on technology integration. Focus on allowing kids to CREATE and that the PROCESS of learning is the most important piece.
- Discussion on how to use real-time assessments on individual students.
- iPad Learning
 - Discussion & handout on using iPads (accessories, tools, apps, etc)
 - Nearpod app for small group learning- create at www.nearpod.com and then access it on your iPad. Create kind of like PowerPoint; create presentation or upload a pdf to Nearpod on your computer. (can create polls, videos, photos, slide show, draw it, etc) Can give you real time assessment results for kids.
 - Pronto, Timer Plus (timer apps)
 - Appgratis – free app a day
- Apps to check out for personal/professional use (not necessarily for kids to use):
 - Google+
 - Pinterest (Abigail Hanson, Courtney Niemeyer, Kara Olson all pin great stuff)
 - Flipboard - news magazine; social magazine
 - Educreations – like a whiteboard app. Can record lessons and share.
 - QR codes – Scan app (really straight forward and easy to use camera)
 - Rowmote – connect iPad to your computer so you can control your computer from your iPad
 - SoundCloud
 - Audioboo
- Apps for kids (primary):
 - Frames
 - 10 Frame Fill
 - Quick Images
 - Count Sort
 - Company to check out that makes some good primary apps: www.preschoolu.com
 - FarkleDice (maybe 3rd grade or above)
 - eduDice
 - SumDice
- Time was spent exploring apps and sharing ideas. See Primary TILT agenda (Google Drive)
- We discussed strategies for writing Classroom Grants.
- Checked out these share sites:
 - o emerging.blogspot.com
 - o slideshare.net
